The 2019 ranking of the Forbes' Best-in-State Wealth Advisors list was developed by SHOOK Research and is based on in-person and telephone due-diligence meetings to evaluate each advisor qualitatively and on a ranking algorithm that includes client retention, industry experience, review of compliance records, firm nominations, and quantitative criteria (including assets under management and revenue generated for their firms). Overall, 30,000 advisors were considered, and 3,500 (11.6 percent of candidates) were recognized. The full methodology that Forbes developed in partnership with SHOOK Research is available at https://www.forbes.com/sites/rjshook/2019/02/20/forbes-best-in-state-wealth-advisors-methodology-2019/#38da87414ed1 . This is not indicative of the adviser's future performance and your experience may vary. Portfolio performance is not a criterion due to varying client objectives and lack of audited data.
